WHERE WE WORK

13 industry clusters, one way of working

The same service means different work in every industry. For each cluster: the industries we cover and the services that usually come first.

A Electronics & semiconductors

Our home ground: from the first project report to a running, certified plant.

PCB manufacturing
PCB assembly and EMS
Electronic components
Semiconductor OSAT / ATMP
Power electronics
Medical electronics
LED lighting
Wire harness and cable assemblies

We lead with
DPR with incentive application · Technology sourcing · Project management · CXO on Call

C Aerospace, defence & marine

Supply chains entered through registrations and quality approvals.

Defence electronics
Aerospace parts and MRO
Shipbuilding and marine equipment

We lead with
Certification readiness · Go-to-Market · DPR · Approvals & Liaison

E Process, consumer & digital infrastructure

Our method and senior bench, with a sector partner's process depth.

Food processing
Data centres
Consumer and hygiene products

We lead with
Go-to-Market · CXO on Call · DPR · Funding & Incentives

B Energy transition

Scheme-driven, capital-heavy projects that must stand up to lenders.

Li-ion battery packs and BMS
Li-ion cell manufacturing
Solar PV modules and cells
Rare earth permanent magnets
Battery and e-waste recycling
Compressed biogas and bio-energy

We lead with
DPR · Funding & Incentives · Project management · Alliances

D Industrial & capital goods

Owner-managed businesses ready for scale and professional management.

Precision engineering
Electrical equipment
Testing and calibration labs (NABL)

We lead with
CXO on Call · DPR · IPO Ready · Certification readiness

F Electric mobility & automotive

Where electronics now decides the value of the vehicle.

EV components and powertrain
Electric two- and three-wheeler assembly
EV charging and battery swapping
Auto components

We lead with
DPR · Technology sourcing · Certification readiness · Go-to-Market

G Drones, space & robotics

Engineering-led companies that need a business around the product.

Drones and unmanned systems
Space technology
Robotics and industrial automation

We lead with
CXO on Call · Funding & Incentives · Certification readiness · Go-to-Market

H Telecom, IT hardware & semiconductor ecosystem

The electronics core, extended into design, materials and equipment.

Telecom and networking equipment
IT hardware, servers and IoT devices
Semiconductor design and embedded systems
Semiconductor materials, gases and equipment

We lead with
Funding & Incentives · Alliances · DPR · BizTek Global

I Life sciences & healthcare

Projects where the licence path sets the timeline.

Pharmaceutical formulations and APIs
Biologics and biosimilars
Medical devices and diagnostics
Nutraceuticals and Ayurveda
Hospitals and healthcare services

We lead with
DPR · Approvals & Liaison · Project management · Certification readiness

J Chemicals, materials & green fuels

Large, approval-heavy projects that turn on feedstock and offtake.

Specialty chemicals
Green hydrogen and derivatives
Advanced materials and composites
Sustainable packaging

We lead with
DPR · Approvals & Liaison · Alliances · Technical due diligence

K Textiles & consumer manufacturing

Export-facing family groups moving to professional management.

Technical textiles
Textiles and apparel
Footwear, toys and furniture
Consumer durables and appliances

We lead with
CXO on Call · Go-to-Market · IPO Ready · DPR

L Agri, food & marine

MSMEs and producer groups building export and market access.

Seafood and marine products
Cold chain and agri-logistics
Agri-tech and farm inputs
Kerala traditional industries

We lead with
DPR · Certification readiness · Go-to-Market · Funding & Incentives

M Infrastructure, logistics & services

Assets and service businesses judged on demand and occupancy.

Industrial parks and common facility centres
Warehousing and logistics parks
Renewable power and energy storage projects
Water, waste and circular economy
Tourism and hospitality
Education and skilling
Global capability centres and digital services

We lead with DPR · Project management · CXO on Call · Technical due diligence

WHAT WE DO

15 services, from first idea to listed company

Core

CXO on Call
Our prime service: a senior CXO by project, assignment or occasion

DPR Services

Project Management (PMC / PMO)

Supporting

Go-to-Market

Funding & Incentives

Approvals & Liaison

Technology & Vendor Sourcing

Technical Due Diligence

Extended

Testing & Certification

BizTek Academy

BizTek Talent

BizTek BTM Solutions

Overseas & Transactions

BizTek Global

BizTek Alliances
Mergers, acquisitions, joint ventures

BizTek IPO Ready
MSME listing on NSE Emerge and BSE SME

Whatever your industry, six situations we answer

You need a CXO, but not full-time	**CXO on Call**
A new plant or expansion needs a loan, investors or incentives	**DPR with Funding & Incentives**
The project is sanctioned and must finish on time and budget	**Project Management, owner's side**
Your MSME earns steady profits and wants to list	**BizTek IPO Ready**
You are looking for a partner, a buyer or a target	**BizTek Alliances**
You are entering India, or taking an Indian business abroad	**BizTek Global**

How we engage

1
Understand
A structured discussion of your need, under a mutual NDA.

2
Propose
Scope, team and terms agreed in writing before work starts.

3
Deliver
Senior associates do the work, reviewed by a Domain Lead.

4
Hand over
Final deliverables, a walkthrough and a clear next step.

Senior bench
Associates with decades in plants, projects and boardrooms.

Vendor-neutral
We advise from the owner's side, with any interest disclosed.

Business first
Technology adapted to your business process, a principle held since 2005.
