

Approvals & Government Liaison

Land, permits, consents and utility connections for your project, on time and strictly by the book.

WHO IT IS FOR

- New factories and expansions in industrial parks
- Projects using state single-window portals (such as K-SWIFT in Kerala)
- Running plants with renewals due (Consent to Operate, factory licence, fire NOC)
- Foreign companies setting up in India

WHY BIZTEK

- Every approval mapped with lead times before work starts
- Linked to the project schedule, so approvals never become the critical path by surprise
- A clean record you can show your board, lender and customers

WHAT YOU GET

Approvals Map

1–2 weeks

Every approval your project needs: authority, documents, lead time and filing sequence.

Land & Site Support

4–12 weeks

Industrial park options, allotment application and site due diligence with your lawyer.

Approvals Management

Project life

Applications filed through official portals, written follow-up, query responses, inspection readiness.

Compliance Renewals

Yearly

A renewals calendar and timely filing, so licences never lapse.

HOW WE WORK

01

Map

Approvals, authorities and lead times

02

Prepare

Drawings, documents and forms complete first time

03

File & track

Online filing, written follow-up, weekly status

04

Renew

Calendar and filings for the life of the plant

GOVERNMENT INTERACTION CODE

Clean approvals pledge

- No gifts, cash or "speed money" to any official, ever
- You pay government fees directly to the authority; we never handle them
- Every meeting with an official is logged and shared with you
- No bonus for faster approvals; if it can't be done cleanly, we tell you in writing

Works with: DPR (approvals and site chapter) · Project Management (approvals tracker) · CXO on Call (COO)

Timelines assume your inputs reach us on schedule — see the Client Project Execution Guide (response times, deemed acceptance, standby).
