

Detailed Project Reports (DPR)

Bankable project reports that lenders, government departments and investors can approve on first reading.

WHO IT IS FOR

- Promoters seeking a term loan or working-capital limit
- Projects applying for central or state incentive schemes
- Companies raising equity or forming a joint venture
- State agencies planning parks, CoEs and incubators

WHY BIZTEK

- Built from a site visit, real vendor quotations and a tested financial model
- First-hand plant and process experience in electronics and manufacturing
- Every report passes an independent BizTek quality review

WHAT YOU GET

Idea Check

2 weeks

A short techno-economic note on cost, returns and a go / no-go view, before you commit to a full report.

Bank-grade DPR

3–5 weeks

Full report, Excel financial model and CMA data for your lender.

Scheme DPR

4–8 weeks

Report in the scheme's own format, with eligibility check and incentive working.

Investor DPR

4–6 weeks

Report plus investor deck, use of funds and valuation inputs.

Public-project DPR

8–16 weeks

Industrial and electronics parks, CoEs and incubators for agencies and PSUs.

HOW WE WORK

01

Discover

Project, purpose and timeline in a free call

02

Visit

Site visit, data and at least three quotations

03

Write & review

Report and model, checked by an independent reviewer

04

Support

Answers to lender queries until sanction

BANKABLE, NOT JUST PRESENTABLE

Our integrity commitment

- Every number traces to a source
- We never stretch assumptions just to pass lender norms; if a project needs changing, we say so
- Technology and vendors chosen on merit; any interest disclosed
- Fees quoted by project size, so small projects are not priced out

Works with: Funding & incentive facilitation · Approvals & liaison · Project Management · CXO on Call

Timelines assume your inputs reach us on schedule — see the Client Project Execution Guide (response times, deemed acceptance, standby).
